DOING WHAT IS BEST FOR THE FUTURE OF CALIFORNIA'S FINANCIAL ENTERPRISE!

Looking for a change? Do you want to make a real difference? Join the team responsible for changing financial management in the State of California.

The Financial Information System for California (FI\$Cal or FI\$Cal Project) is a historic partnership of the Department of Finance, the State Treasurer's Office, the State Controller's Office, and the Department of General Services — to transform the existing budgeting, accounting, procurement, and cash management systems to optimize the financial business management of the State. FI\$Cal will allow the State to operate as a single enterprise for the first time in history.

Join FI\$Cal. With a passion for implementing change and vision for enterprise-wide thinking, you will take a leading role in achieving our goal to bring enterprise resource planning tools and statewide process improvement to the State of California.

THE FI\$Cal PROJECT IS SEEKING MOTIVATED CANDIDATES WITH THE FOLLOWING CHARACTERISTICS:

- ✧ Ability to exercise a high degree of initiative, independence of action, and originality;
- ✧ Ability to learn rapidly, follow directions, and communicate effectively with others;
- ✧ Ability to work unscheduled excess hours if needed to achieve Project goals;
- ✧ Ability to maintain regular, consistent, and predictable attendance.

Candidates must also:

- ✧ Demonstrate good judgment, tact, initiative, and diplomacy;
- ✧ Be highly adaptable – and have the ability to adjust to multiple, changing priorities requiring quick turnaround;
- ✧ Be able to work in a matrix team environment, collaboratively and cooperatively with staff from multiple departments and agencies, and numerous vendors.

DUTIES: Under the general direction of the Data Processing Manager III, the Senior Information Systems Analyst Supervisor (Sr ISA Sup) is responsible for independently managing and performing the most complex information technology (IT) activities related to budgeting and accounting functions that are necessary to support the 150+ departments required to transact in the FI\$Cal System. As part of supporting departments, the incumbent will serve as a supervisor in the FSC with a working level knowledge of system design, application development life cycle and state budgeting and financial management functions, processes, IT business procedures and practices for budgeting, accounting, and statewide financial reporting and management functions. The Sr ISA (Sup) provides assistance and support to departmental end-users regarding FI\$Cal system incidents and service requests in the FSC. This includes participating in envisioning the end-to-end processes and applying a broad understanding of the mission critical responsibilities and major functions of the project.

The incumbent will work in a team environment that includes activities necessary to achieve successful implementation of the FI\$Cal Project such as collaboration, development, and review of business and system requirements, gap analysis, data conversion, interface establishment, design, configuration, installation, testing, training, deployment, process re-engineering, change management, communication, and other activities. The Sr ISA (Sup) plays an important role in the overall success of the FI\$Cal Project by providing highly visible production system support.
